PRIMARY 4 - IDL LEARNING

Bundle 1 – Scotland's Past - Past Society: I will learn about the ways we can learn about Scotland's past and begin to explore the reliability of different sources when learning about the past. I will compare the daily lives of people from today with those from the past. I will look at important figures from the past and the contributions they made. I will have opportunities to make models of historical buildings. I will recreate stories based on local history.

Bundle 2 Sciences - Climate and Ecosystems: I can look at different climate zones and environments and how they influence the living things that are found there. I will identify the difference between living and non-living things. I will explore food chains and the interdependence of living things.

Bundle 3 Community and Enterprise: Enterprise - Food: I will become familiar with the different roles that people can have in running a business/enterprise. I will learn how teams come together to solve problems or make decisions. I can use a variety of simple food preparation techniques (e.g create a food based enterprise)

Bundle 4 Science - Weather and Water: I am learning how to use simple instruments to measure weather. I will explore states of water and dissolving.

Bundle 5 Sciences – Electricity and Materials: I can describe and make electrical circuits.

I will learn about the properties of materials and how they can be used.

Bundle 6 Technologies – Textiles: I can use problem solving when working with a food / textile challenge.

Bundle 7 Sciences - Inheritance: I can understand that people are unique and begin to understand how characteristics are inherited.

Bundle 8 Pupil Voice : I have the opportunities to lead my learning and make choices about how and what I learn.
